WAMITAB Level 2 Certificate In Front Line Environmental Services (QCF 600/0025/9)

Qualification summary

Achievement of the qualification demonstrates competence by the learner to operate appropriately and in accordance with employment requirements as determined by the units selected, within the Environmental Services Industry.

The qualification is assessed 'on-the-job' at a suitable environmental services facility which may include working on public highways or other areas accessible by the public or other persons.

The qualification provides progression opportunities by utilising units that are common to other waste management QCF qualifications. Furthermore, earlier qualification of a similar type can, through for example, recognition of prior learning (RPL), enable progression to the learner to achieve this or other qualifications appropriate to their employment.

Learners must complete all mandatory units and five option units, to a minimum credit value of 31. Learners must not take more than two option units at Level 1 and must adhere to barred unit restrictions.
