# Continuing Competence training for ELV TCM's

- Historically, 'Exempt' activities have meant that few ELV managers have been required to achieve a WAMITAB qualification.
- Therefore: Minimal training has been provided to this important sector.
- DEFRA/EA/NRW used the CIWM/WAMITAB Scheme as the means to determine TCM requirements for those '**existing**' managers.
- 'Waste Exemption Review' relates.

# ELV Continuing Competence requirements

- **Specialism** – ‘End of Life Vehicles’, often linked with ‘Scrap Metal’ merchant operations.
- **Generic:**
  - Health and Safety
  - Legislation
  - Environmental Protection
- Often it is the ‘Generic’ questions that pose problems to the Operator.

# Continuing Competence Tests Certificated

# Technical Documents (some key examples)

- ELV Regulations 2003
- Scrap Metal Dealers Act 2013
- Scrap Metal Dealers Act 2013 (Explanatory Notes)
- Depolluting ELV (Cars and Light Goods Vehicles) Guidance for ATF's March 2011 – Defra/BIS
- The safe recovery of petrol from ELV's – HSE
- Removal of LPG Tanks (BIS)
- **SRP's 2008No20/2011No3** – Vehicle Storage, depolluting and dismantling
- How to Comply with Your Environmental Permit (EA)
- Small Businesses: A Guide to the Hazardous Waste Regulations (EA)
- ***EA Guidance – Waste Crime Innovation Programme – ELV (information to Environment Officers)***

# Environment Agency Report (England)

## September 2014

- **In 2013** - There were **312** breaches of permit relating to competence
- **In 2014** - **240** (to date) breaches of permit relating to competence
- Over the period: **552 in total to date**

# Categories of breach

- ‘No current competence’ (***lack of attendance by competent manager***)
- ‘Wrong current competence’ – ***competence does not relate to permitted operation.***
- ‘No primary competence’ (***COTC or equivalent***) as a result of ‘Waste Exemption Review’: ‘Transitional activities’

# Waste Exemptions Review (extract)

## Transitional activities:

- Operators who had exempt activities registered with us on **5 April 2010**, that will move into permitting, will **need to advise us who these managers are at the time of their first permit application**.
- This applies to an operator who starts an activity that is covered by one of our **new Standard Rules permits** (anaerobic digestion activities are excluded), which have replaced existing exemptions.
- The nominated **managers must have had a responsibility to control the activities covered by the registered exemption**.
- All nominated managers must pass the test **within 12 months** of the first permit being issued.

# In 2013, 312 (TCM Breaches) Comprising:

- 155 incl: Metals, ELV, WEEE
- 118 Inert treatment
- 19 Biological waste treatment
- 13 Landfill
- 5 Hazardous Waste

# Of the 552 TCM non-compliant permitted sites, (2014) - 240 relate as follows:

- 37 Recommended for prosecution
- 12 Given a formal caution
- 66 Given a formal warning
- 112 Have received (EA) 'advice and guidance'
- 13 There is no record of 'formal' activities

# Did you know?

- Continuing competence candidates tested ELV = circa 650 (2014)
- Number of permitted sites ELV: circa 2000
- Total number of permitted site circa 8- 10 000 (all categories)
