

WHAT IS AVAILABLE?

We are pleased to provide a range of qualifications, apprenticeships, training programmes, routes to industry employability programmes and resources to those working within, or retraining to work within the resource management sector. These qualifications fall into the categories of:

- Anaerobic Digestion
- Recycling
- Waste
- Health and Safety (DASH Training Programme - specifically for the waste industry)

WHAT DO THEY COVER?

The WAMITAB waste qualifications provide core knowledge and understanding required by individuals employed in job roles ranging from operative to management level.

WHY CHOOSE US?

With over 20 years of experience in the field, we are the leading organisation in developing and quality assuring the delivery of waste qualifications.

We understand that people and their personal development is critical for the success of any business, so ensuring employees are safe, compliant and equipped with the right skills for the roles and tasks they undertake is a priority.
