

WAMITAB Level 2 NVQ Diploma in Removal of Hazardous Waste (Construction)

About this qualification

This qualification is designed for those working in waste removal and construction roles. It will be particularly beneficial for those who need to gain the skills, knowledge and competence to undertake the removal of hazardous wastes safely and in accordance with employer requirements. This qualification will facilitate entry to job roles in the waste and resource management industry.

Who is it for?

- New entrants to the industry
- Waste removal professionals
- construction workers
- Experienced workers seeking a formal qualification

What does this qualification cover?

To achieve this qualification, learners must complete all mandatory units (10 credits) designed to ensure that individuals are able to:

- Conform to general health, safety and welfare in the workplace
- Conform to productive working practices in the workplace
- Move, handle and store resources in the workplace

Learners must then complete the two hazardous waste units (4 credits) designed to ensure that individuals can:

- Install and remove containment areas for hazardous waste in the workplace
- Sort and store hazardous waste in the workplace

Additional units have also been identified, but credit from these units does not count toward the qualification.

What are the entry requirements of this qualification?

This qualification is open entry. This means that learners interested in undertaking the WAMITAB Level 2 NVQ Diploma in Removal of Hazardous Waste (Construction) do not require any other qualifications or levels of attainment.

What job role could this qualification lead to or support?

This qualification is ideal for people seeking entry to the waste and resource management sector, or those who are already working and require evidence of their competence dealing with hazardous waste. It is a flexible qualification that can be tailored to meet the requirements of specific job roles in the sector or within a particular organisation – these job roles include:

- Waste/ recycling operative
- Waste removal professionals
- Construction worker

People already working in relevant roles could be employed by local authorities, waste removal companies or construction companies. This qualification will support the sector to overcome significant skills gaps as nearly one in five members of the workforce (18%) has no qualifications (UKCES, 2012).

General Information

Guided Learning Hours: 127* *this is the amount of time the average learner is expected to spend in supervised learning and practice, but may vary by learner

Maximum Total Qualification Time: TBC*

Credits: 38

Ofqual Number: 600/5793/2

WAMITAB Code: CHREM2

Assessment: Portfolio of evidence

Available in the following countries: England, Northern Ireland, Scotland and Wales

Learners must complete all mandatory units to achieve a total of 10 credits, and then complete both Hazardous Waste Pathway Mandatory Units. Additional units have also been identified, but credit from these units does not count toward the qualification.
