

WAMITAB Level 2 Certificate in Computer Refurbishment

About this qualification

Learners will develop the knowledge and skills required by employers to refurbish laptops and computers safely and in accordance with legal requirements for reuse of computers. This qualification is ideal for new entrants to the industry that need to understand and implement the computer refurbishment process. Once learners have achieved this qualification they will be able to progress directly into computer refurbishment job roles in the waste and resource management sector.

Who is it for?

- New entrants to the industry
- Pre and post gate prisoners
- Long-term unemployed who wish to retrain
- Experienced workers seeking a formal qualification

What does this qualification cover?

To achieve this qualification, learners must achieve 23 credits by completing the all of the mandatory units. These units are designed to ensure that individuals will be able to;

- Understand the reasons for refurbishment and reuse
- Understand the principles of sustainability
- Work safely
- Check that computers are suitable for refurbishment and reuse
- Disassemble computers
- Refurbish computers to remove data
- Refurbish computers to fix software problems
- Re-start computers and check for problems
- Certify computers ready for reuse

What are the entry requirements of this qualification?

This qualification is open entry. This means that learners interested in undertaking the WAMITAB Level 2 Certificate in Computer Refurbishment do not require any other qualifications or levels of attainment in order to take this qualification.

What job role could this qualification lead to or support?

Learners that achieve the WAMITAB Level 2 Certificate in Computer Refurbishment will be able to progress into employment in the waste and resource management industry. A recent study by Green Alliance and Waste & Resources Action Programme (WRAP) has predicted that the waste management sector could create over 200,000 jobs in the next 15 years.

There is significant potential for employment for those with computer refurbishment skills as households and companies discard 2 million tonnes of waste electrical and electronic items every year (HSE, 2015) that can potentially be refurbished. Achievement of this qualification provides the skills required for learners to directly seek employment as:

- Reuse/Refurbishment operative
- Computer refurbishment technician

General Information

Guided Learning Hours: 212* *this is the amount of time the average learner is expected to spend in supervised learning and practice, but may vary by learner

Maximum Total Qualification Time: TBC *

Credits: 23

Ofqual Number: 601/7544/8

WAMITAB Code: CR2

Assessment: Portfolio of Evidence

Available in the following countries: England, Northern Ireland, Scotland and Wales

Qualification Structure

To achieve this qualification, candidates must achieve 23 credits from the Mandatory Units.

Mandatory Group A

Title	Level	Credits	WAMITAB Unit Code
Introduction to Reuse and Refurbishment	1	6	00
Disassembly of Computers for Refurbishment	2	4	00
Re-assembly of Computers for Reuse	2	3	00
Data Implications for Refurbishment and Reuse of Computers	2	3	00
Setting Up Refurbished Computers for Use	2	4	00
Quality Assurance, Certification and Labeling for Refurbished Computers	2	3	00
